Frequently asked question

Where do I locate the license agreement form?

The following legal document need to be submitted with the manuscript to the journal online, please download below:

- Authorship, disclosure statements, copyright, and license agreement form

(https://aosis.co.za/documents/Authorship_DisclosureStatements_Copyright_Membership_LicenseAgreement_Form.docx)

Please complete and send the completed and signed form to
submissions@jamba.org.za.

Frequently Asked Question

What can I expect from the publication process?

- Notification within three weeks, if not accepted for further review.
- Notification within three months, if accepted for publication, if revisions are required or if the article has been rejected by both reviewers.
- Publication within six months after submission.

Note: Editorial staff initially examine manuscripts and the editor sends the manuscripts to independent reviewers who are not informed of the identity of the author(s). When publication in the article's original form is not recommended, the reviewers' comments (without the identity of the reviewer being disclosed) may be passed to the corresponding author and may include suggested revisions. If a manuscript is not approved for publication, it will not be returned to the submitting author.

Journal: Jambá: Journal of Disaster Risk Studies

Dear Dr Efendhoi Raharjo

We thank you for the submission of your manuscript. The peer review process of your manuscript has now been completed and we have reached a decision regarding your submission.

At present, your manuscript requires major revisions to address the concerns of the reviewers. Their comments are attached to the email and/or to the bottom of this letter. If not, for your convenience log onto your profile to view the reviewers' comments.

Please include with your revised submission an itemised, point-by-point response to the reviewers which details the changes made. The revised manuscript should be submitted by 03-Dec-21; if you anticipate that you will be unable to meet this deadline, please notify the Editorial Office.

As a member of the Committee on Publication Ethics, we encourage your participation in assessing your Similarity Check Report in your journals' personalised manuscript section. Proceed to rewrite the paraphrased text or to introduce citations and acknowledgements as needed. Our assessment revealed:

Report Interpreted: The manuscript does not contain similarities concerns at this time.

Below my signature, you will find steps to resubmit your revised manuscript. If you need any assistance, kindly contact the Editorial Office at submissions@jamba.org.za with any questions or concerns.

We look forward to receiving the revised manuscript.

Yours sincerely,

Mr Wentink

Unit for Environmental Sciences and Management, African Centre for Disaster
Studies, Faculty of Natural and Agricultural Sciences, North-West University

Frequently Asked Question

How do I view the reviewer comments, after the formal peer review, if the
Editor-in-Chief provided feedback regarding my article?

The editor should send you an email stating all the revisions suggested
during the formal peer review process. If you are advised to download the
comments via your personalised journal section, follow these steps:

- Log into your personalised journal section in the journal.
- Under your 'User Home' click on the 'Author' or 'Active'
link that will direct you to your 'Active Submissions Table'.
- Under the 'Status Column', click on 'In Review: Revisions
Required'. This link takes you to the overview of the peer review process.
- The review page of your article provides information and documentation
under the heading 'Peer Review', and will identify files by reviewers,
e.g. Reviewer B 19-123-1-RV.docx 2011-08-10. Download these documents to
view the reviewer files.

Frequently Asked Question: The Editor-in-Chief has requested revisions to my
article. How do I submit my revised version?

When the editor dealing with your submission chooses to ask for a revision,
you will be notified by email. In the journal's personalised section your
submission will move in the active table from the status 'In Review' to
'In Review: Revisions Required'.

When you prepare a revised version of your manuscript, it is essential that
you carefully follow the instructions given in the editor's letter. Use
the standard uploading format (as described for original submissions), but
include both a clean copy of your manuscript and an annotated copy
describing the changes you have made. Failure to do so will cause a delay in
the review of your revision.

If references, tables, or figures are moved, added, or deleted during the
revision process, renumber them to reflect such changes so that all tables,
references (Vancouver Style) and figures are cited in numeric order. Images

need only be uploaded if changes have been made to the figures since the previous version.

The annotated copy should have highlights on the changes (either by using the 'Track Changes' function in Word or by highlighting or underlining text) with comments in the text referring to the editor or reviewer query. Be sure when you upload your annotated version that the changes are clearly visible on the Word (.doc) file prior to resubmission.

You should create a point-by-point response letter specifying how you have addressed each of the editor's and reviewer's comments.

Using the review version of your manuscript, edit and revise your submission according to the reviewers' and editor's comments, and follow the steps:

- When you have addressed the comments and completed your revisions, log into your journals' personalised section and click on 'In Review: Revisions Required'.
- Under the 'Editor Decision', click on the bubble icon to view the editor's decision letter. If needed, you may view the original editor and reviewer comments by clicking files linked under the 'Review Round'.
- Once your revisions are correctly formatted and prepared, click on 'Browse' to begin uploading your revised manuscript from your desktop. Ensure to upload a clean, annotated and point-by-point version as part of your revised manuscript submission.

Once all three documents are uploaded, you will need to inform the editor via email of your resubmission. Click on the email icon and proceed to type and email the editor. Remember to press 'Send'.

For a video detailing the uploading of your revised manuscript see here:

12. Additional comments for Editor and Author?

:

This paper has promise but it needs further work. The literature review is poor and unfocussed. It could be much better. The volcanological explanations are also poor and need to be improved. Questions about the whole process of emergency evacuation on the island need to be answered (see annotations on manuscript).

Dear Efendhi Raharjo, Sri Sarjana, Mega Safitri

We are pleased to confirm your manuscript's acceptance for publication on
13-Dec-21.

We can also confirm that the Submission and Review Department released your
manuscript to our Finalisation Department to commence the various editing
processes to secure online publication within the next 90 days (if not
sooner).

Kindly note:

1. If you need to make contact with AOSIS Publishing during the finalisation stage of your manuscript, kindly contact us per email or phone.
2. The finalisation procedure works as follows: (a) The first stage is the language editing that is returned to the corresponding Author for review. This will be the final opportunity for the corresponding Author to make text changes to the manuscript. (b) At a later stage, the editorial staff will send the corresponding author one set of galley proofs, at which time the Author will have two working days to mark any typographical errors.
3. Manuscript tracking is available on the submitting authors' journal profile. The submitting Author could visit their home page frequently to assess the stage of the manuscript.

Thank you for your continued patience and support, and we hope you have
joined our online community by signing up to our RSS alerts and Twitter
page.

Dear Dr Efendhi Raharjo

We noticed in your article you do not mention the Figures 1–2, 4 and 6 and then Table 2 in the text for reference as you do with the other tables and figures for reference when reading, e.g. (see Table 1), or Table 3 summarises etc.

- Could you please indicate where to mention Figures 1–2, 4 and 6 and then Table 2 in the text to comply with the style guide and for consistency?
- There was also no high resolution image for figure 2 provided for the print version.
-

The previous document you sent does not have this added, also, please use the PDF to highlight and add comments for us to see exactly where to implement.

We will then update again accordingly.
